CHARLES H. MARSH,
TAXIDERMIST,

Santa Fé, N. M., Oct. 3, 1882

Dear Sir:

I have just returned from a three weeks absence & find your postal awaiting me. I send you a list of the skins I have on hand now as soon as I have more leisure, & when I hear from you again, send you a more complete list. I may say briefly that I have collected some 230 species of birds here for a great many of which I could pick orders. My stock is about exhausted

Spring will send me a list of birds you desire & I will send you specimens of each species you select if "made up" & ready for market.

Yours Respectfully,
Chas. H. Marsh

now & should you care for any quantity I should prefer to have you send me a list of those you want & I can then collect for you during the winter & spring, & thus make sure of giving you a.1. specimens. Should you want skins in any quantity I can give you a liberal discount from my list. I have special rates for clearers.

The birds which I am most liable to get are the blue birds, some 7 species of warblers, 10 of finches, the blackbirds, grackles & orioles, all the warbler, crow & jays nearly all the fly catchers, also of the woodpeckers, 5 or six of owls, nearly all the hawks, buzzards, falcons & eagles, Gambels, Macleans & Blue grouse, a majority of the snipe, plover, dutto glee & ducks

Price List

Santa Fé, N. M., Oct. 19, 1882

Wm. Brewster, Esq.

Dear Sir:

I have been so busy with other matters that I have not had time to prepare the list of birds that I could obtain here. I enclose it with prices. They are the ruling ones which I have been supplying dealers this summer. As I said my stock of skins is now about exhausted, but if you will indicate any in the list you care for I will lay them aside for you as fast as I collect

them. I have underscored those which I shall be most liable to have before spring. I have arranged with several parties to collect for me during the fall & winter. I will send you a specimen skin tomorrow & shall be pleased to receive an order from you.

Yours Respt

Dear Sir:

Your favor of the 1st inst. duly rec'd. Send you by mail a box containing a few skins as per enclosed menu which I think will prove satisfactory. You are at liberty to return any time any skins that are not tho' I do not hold myself responsible for any damage that may be done in the mail. I always take pains to pack the skins carefully & securely & have never had any complaint

on that point. Another thing you mention in your letter in regard to which you must have been misinformed, I cannot now afford to pay postage or express on skins that I sell at wholesale rates, as I do to you, but I endeavor to make such ~~rates~~ prices as low as possible. I shall be able to send you another lot of birds in the course of a month. If you want more of the Blue Tanager I can spare them now. I believe I did not include Townsend's Fly-catching Thrush in my list. I have them @ 40¢. We save the first pair of Hummingbird owls I get for you. If agreable to you I shall prefer you remit for birds as they are rare, as I do a cash business entirely & do not run any accts.

Yours Respt

Dear Sir:

Yours of the 13th rec'd. Rec'd the money order in due time & acknowledged receipt Nov 27, but the letter doubtless miscarried. I have not forgotten your order by any means, but am buying a little birds as fast as I secure them. I am only waiting now to get enough to make a respectable box full when I shall ship you more. Mr. Plummer order antedates yours & I have to observe the rule

"first come first served." I am looking every day for more quail, both Muscovy & Gambels from the same source as Mr. Ré. They were sent to me by an officer at Fort Cummings. As soon as I get more I will buy them and send you. When I quote prices on these quail I did not realize the difficulty in getting them & gave you prices which are very little above what they cost me. And this reminds me that I must ask you to ~~keep~~ keep the prices I give you as <u>strictly confidential</u>. I give you prices very much below my retail rates in some instances lower than I price from

entirely decline with. ~~If~~
~~as~~ I will this, as you said
you would in all probability
become a large purchaser,
as I certainly trust you may.
Of course you can see that
if you tell other collectors
or dealers the rates I have
given it leads them to com-
plain. I am apt to lose their
custom. I think you will see
the necessity of my request com-
ply with it. I hope soon to
have the Mexican Turkey for
you as I have a man out
hunting for them now. He
may succeed in getting
them, Turkeys have been distributed

so many times this winter by men who have since they moved bring them to me. I also engaged a man to bring me some Dusky Grouse, but had the ill-luck to spill a charge of shot into one yesterday which will disable him for a while. I shall make every effort to get me the birds on your present list as well as any you may order in the future. Intend as soon as spring sets in to make a three months collecting trip thro' the ~~country~~ Territory & hope to secure a good many valuable specimens.

Mr. Wm. Bourke,

Dear Sir!

Send you by express today 15 birds as per enclosed memo. I hope to be able to get the bal of the green lizards for you i.e. 2 g's. but I have great difficulty in obtaining both these rare specimens. These are all I have had since I last wrote - I saved the very first that came in, as I knew you wanted them. They are in great demand, dealers are offering me 2.50 each for them. Believe me to be your order at Bear

as possible, & should be pleased to receive further orders from you. I have been on the side list for some six weeks & have made as much money out of it as I could hope to. There a few specimens that have been spilled a little on the under side near the leg, by some, otherwise it is in good condition. If you care for it at price mark it in my next list. Wm. Brewster Esq.,

Dear Sir,

Yours of the 5th
rec'd, I am very sorry to learn of your
illness. Send you today by
express shrike as per inclosed
list. The shrike of 182a above
are my make up; the others
are made by my friend. I
do not take the responsibility
of them; I am sorry the 370 are
not better made, if I had had
time would have made them
over. I am a little suspicious
that 361a may prove to be 361.
They are much whiter than any
I have ever taken. I give you 4 of
of 182a only and 3, nice and the
other is a poor specimen. The shrike of
3rd proved to be winter plumage
rather dull. I did not send them
I am afraid they would be
getting lost forever, but

are without fire. Before leaving
Ca. I leave Santa Fé Oct 1, or
rather Sept. 29, for the southern
post-office territory, where I
intend spend the winter. I shall be
so much obliged if you will
remit the amt due so that
my skins as early as possible
so that I may return them before
I leave. I believe that the
greater part of the fur number
to collecting if you will send
me a new list of your grand-
ratio I hope I shall be able
to fill it more completely than
I have hitherto. I intend keep
a sharp look out for Rich' Falcon,
&c &c, rather keep your pocket
ac to my whereabouts. I send
you a photo of a few days
hence taken last night.

Yours Respt.

Dear Sir:

Send you by mail today, per #79 Neither hair nor black ears as the first skin which had a deep, glossy black stripe thro' the ear to the back of head. Pray do better bye bye if so nice let you know.

Send you bill for crew & turkey as I have reserved them for you. If you do not feel that you can pay the whole can you send me

a part of it. I think we never agreed on price of birds. I have billed it just 25¢ more than it cost me. Have had an order for one since I billed you. I would reserve it. My latest "cash lines" are 17, 34, 40, 189, 190, 219, 220, 218, 310b, 369a, 378b, 181 under plumage. I am taking some very handsome 1905 new would you like any? I shall hope to hear from you soon. Please remit by money order.

Yours Respt.

Dear Sir:

Your favor of the 4th duly rec. Thanks for the money order. Your post-master was careless enough not to stamp the order & had some trouble in having it cashed. I had my suspicions of the pils, but knew you would set me aright. I am positive that the first one Stole was the P. melanotis as the black was a very definite & glossy black

patch. I am very sorry I did not save it, for as it was.
Please let me know when you wish the Crow & Turkey sent.
I consider the latter a fine specimen, tho', as I told you in my first letter in regard to it, some of the scales on one tarsus are rubbed off, otherwise it is in fine shape.
I have but one H. mexicalis @ 1.25 a bicolorus ♂ C. fruticeti 35¢. They ♂'s are in very fine plumage now. My "capture" since Sept. last are, H. crescalis (17) @ $1.50; C. mexicanus (19) .75¢; P. marianus (40) .50¢; S. aculeata (51a) .50¢.

Dear Sir:

Yours of the 8th duly rec'd. I am sorry to say that I shipped the last of my v. minors away in Feb. but will save you the next pair I take, & it will probably be soon – will sell them to you @ $1.25 each, tho' I am receiving more than that per them & they are in good demand. I have always offered my skins to you, at every year, the rates I supply them to dealers with the understanding that you order enough of me to warrant my so doing. Will bear in mind to offer prices to skins

hereafter, indeed have intended to do so. Enclose list of Eggs I have here on hand. You may find some among them you would like.

Please let me know about the price as I shall receive the Eggs from you again.

Birds are very scarce here now. Am going on a trip to the Isle this week. Hope to find something new. Have seen nothing of the Grouse yet.

Dear Sir:

Yours of the 3rd duly rec. I fully understand what the "hard times" mean for anyone, for we feel them in this land of high prices even more perhaps than you do in the East. I shall endeavor to keep you posted as before on my "captures," trusting that in the fall you will feel at liberty to send me some more birds to do what I can to retain a point of the Vireo forgan. I do not know that there is

anything that you have agreed to take, then the only will return us is the 70¢ per C. profit and in, may. I would Please an opportunity to cover your turkey loss by fright. Price do so otherwise will carefully preserve the Pieces until to ship. There is a bare possibility that Bruce may make a trip East myself in the fall or that case could take it with me. Will depend on my success in business. Meanwhile Fanny barely making a living.

Dear Sir!

Yours of the 22d. rec'd duly rec'd. I was after sending my other letter tried quite an order for red-headed Woodpeckers was it were quite unnecessary whether you wanted them or not I send you but four which I send to you. Had received three deluxe for myself as they had very evident traces of red in the heads & I did not know but what I might never meet with another such in this way to send for something out of the way. I think I can send you the Red & Blue Jays in the Pale necked Jays and you the Turkey Vulture

as I see no chance for freight to Boston
Have packed as tightly as possible.
Have no Black-colored Tile here. I took
second last summer after you countermanded your order, but lost them.
Have probably by the time this reaches
you quite positively lost them.
Have a few gray ones that I took with
them combined above white & take to
the pig. Black-round. Send you
list of colors Blanc in black &
hope you may find some you
want, as I believe have to say
bill with me this winter. This is
my regular wholesale list to
dealers, so please do not quote
prices too publicly. No Blanc
no objection to receiving orders
and you perhaps provide but cannot
afford to sell at these rates
in order to compete.
If you wish to meet young
lady please this season write to me

Dear Sir:

Your of the 6th duly rcd. I have (7) seven American Titlarks that I will send to you subject to approval @ 20¢ each $1.40 for the lot. I have no Lazuli, have never taken them here, found them at Santa Fe. I send you list of all the skins I have in stock, they are almost all of my last winter & spring collecting & are all fine skins. The Indian raid thro' this section in May put an end to my collecting for a time & since then I have been on the sick list & unable to write so that I have not done as well

P. S. I can obtain many birds for you now if you wish especially use this species that must have, but should only want to collect them in a special order.

C. H. M.

as I expected to this spring. I have marked my skins very low as I wish to close them out, for I find that with the prevailing dull times & slow sales that I cannot begin to make a living out of collecting & must try for something else.

I have be pleased to receive an order for anything you wish

TERMS:—Cash, with order, by Registered Letter or Money order on Silver City, New Nexico. 1 and 2 cent stamps will be received in payment for small orders, although preference is given to coins for fractions of a dollar. These may be sent with safety by wrapping in paper and enclosing with the orders. Special discounts will be allowed on large orders, to dealers, professional taxidermists, schools and colleges.

TRANSPORTATION:—Skins of small birds only, will be forwarded by mail, pre paid, where the order amounts to $1.00 or more. Articles by mail will be carefully packed, but are sent at purchaser's risk. Packages under 7 lbs. in weight can be sent by express to any part of the United States at the rate of 15 cents per lb., safe delivery guaranteed.

SKINS:—All skins are my own make and at prices quoted, are warranted *first class* in every respect, either for cabinet specimens, or for mounting, are labeled with species number, date, locality and sex; the latter carefully determined in every case by dissection without regard to plumage. In all cases where skins do not give perfect satisfaction they may be returned and the money will be refunded. Only skins *checked* in stock at time of sending catalogue. My stock of skins is constantly changing; a revised list will be sent each month to customers forwarding 10 cents in stamps.

The numbers used are those of Ridgway's Nomanclature of North American Birds.

Collectors sending list of desiderata will be supplied with specimens not in stock as fast as they are received.

EXCHANGE:—Do not exchange for specimens from other sections.

Wm. Brewster. Esq.

Dear Sir;

Yours of the 4th with Money Order rec'd, thanks. I had identified the birds as plumbeus, but Mr. Ridgway of Washington pronounced them solitarius. I hold big a number each, thanks for setting me right. I will be unable to send you the young birds you prize in nestling plumage, but have the following in first plumage if you can use them;

4 Blue Jacks @ .50¢ each
1 Road-runner .. 75¢
1 Baird's Bunting .. 1.00
2 Virginia Warbler 3.00 also 2 adults

O.P.

2 Tiverne Nuthatches 75¢
2 Bullock's Orioles (?) 50¢

I also have the following birds which seems such in good condition that I will give to you if you care enough for them to pay the expense.

1 Road-runner
2 Cactus Wrens.
2 Lead-colored Titis.
1 Gray Flycr.
1 Canine Tanager
1 Mocking bird.

Do you think Mr. A. would care for any more Warbler? Lewis probably will come soon. I hope to have possession real. within a few months now.

Yours Respt.

Dear Sir:

Send you by mail today a box of the Sparrows that I find on the salt marsh here. I am not positive that they are the species you wish, as I have no means of identifying them. Please if they are not, you may return them to me at my expense & any that may not prove satisfactory I will exchange. I shall leave for the East in about 3 weeks.

Dear Sir,

Last March I purchased some Lance from Stigel & his as it is seem my little, when I did so I supposed I should be able to correct skin troubles & pay my living expenses, but find that there is absolutely nothing here worth expecting from after above for theory money. I have tested that Lance on my skin at any price I can market them down below cost I can

Can you use any fitum for purposes of charge or otherwise? I should be pleased to hear from you.

Yours Resp.

Belgrade, Neb. Feb. 5. 1892

Mr. William Brueler,
Dear Sir:

I receive a list of letters in your Congressional Record, which you kindly sent me, and find that one addressed to Edward Bauer is among them. Some also taking many interesting documents this season. If you do not care for any future special would you kindly hand my list to some of your friends who are interested in that subject. Leaving the last one, 9, which seems unnecessarily

that answer in every respect
to the description of Violet-Green
Swallow as given by Dr. Cooper
in his "Birds of Pacific Railroad"
the characteristic white
Rump-patch. Does not quite
fully the matter to my satis-
faction. Please let me know
if it was the same to Europe,
I could send for curiosity if identified
it for me, if dead is it rare?
Also am in doubt as to the
identity of the Western Wren
found here, of which I send also
and your Specimen.

Yours truly,
